Education

Pennsylvania State University, University Park, PA Aug 2021 – Present
B.S. in Computer Science (Minor in Mathematics) Expected Graduation: May 2027

Experience

Levit Inc. (Shoport AI) - Associate Problem Solver June 2026 – Aug 2026
- Worked directly with the **CEO** on Shoport, Levit's live iOS/Android AI shopping app, across routing, evaluation, and personalization systems.

- Evolved routing from LLM classification to an embedding-based semantic router ($\sim 8\times$ **faster**) and a hybrid classifier, reaching **86%** V3 accuracy and rescuing **93%** of eligible errors.

- Designed and shipped Wowness, a Mem0-backed cross-category recommender, as sole engineer, and built the production evaluation & backfill platform end-to-end.

- Diagnosed system-boundary production failures and corrected analytics false positives; contributed **730 commits** and **143 merged PRs** (+114K LOC).

SIGNUM (Nittany AI Alliance – PIT-UN Funded) Aug 2024 – Nov 2025

Co-founded an AI-powered caregiver support platform that received \$3,750 in PIT-UN funding.

- Built a HIPAA-aware RAG assistant using AWS Bedrock, FAISS, and spaCy.

- Integrated CMS, NPPEs, and Google Places APIs to build a provider search system.

Republic of Korea Air Force Sept 2022 – June 2024

- Promoted to Squad Leader and led 20+ airmen in high-tempo operations.

- Received a Commendation Award for leadership and operational readiness.

Atom Tech Solutions LTD, Internship — Berkeley, CA May 2022 – Aug 2022

- Developed secure login system with SQL and JWT based authentication.

- Implemented encrypted data storage and credential generation features.

Projects

Undergraduate Research Assistant & Team Lead Oct 2025 – Present

- Researched federated and adversarially robust TinyML for IoT security, improving attack recall from 46.7% to 93.9% and F1 score from 84.1% to 89.3%.

- Compressed deployment models by $12.3\times$ and reduced ESP32 inference latency by 74.5% using pruning, knowledge distillation, and INT8 quantization.

XIIO – LinkedIn for Filmmakers Apr 2026 – Present

Building a LinkedIn-style platform for filmmakers featuring creator portfolios, video streaming, collaboration, and school-based discovery using Next.js, Firebase, and Cloudflare Stream.

ASME @ Penn State Website Aug 2024 – Present

Built the ASME Penn State website with React, TypeScript, and Firebase, including real-time Firestore listeners and role-based permission/approval workflows.

Skills

Languages: Python, TypeScript, JavaScript, C++, Java, SQL

Frameworks: React, Next.js, Node.js, NestJS, Flask

AI/ML: PyTorch, TensorFlow, OpenAI API, AWS Bedrock, FAISS, Mem0, scikit-learn, spaCy

Databases & Tools: MongoDB, Redis, Firebase, Kubernetes, Git, Docker, Datadog

Awards & Honors

- 1st Place, ThinkNeuro LLC Project Competition Apr 2026

- 1st Place, IEEE Student Chapter Battle Bots Competition Apr 2026

- PIT-UN Funding Award (\$3,750) – Nittany AI Challenge Apr 2025

- 3rd Place, ACM Pathfinder Robotics Challenge Apr 2025

- Dean's List, Penn State August 2021 - Present

Activities

Penn State THON™, Technology Captain Apr 2026 – Present

Penn State Advanced Vehicle Team (AVT), Project Manager Fall 2026 – Present

ACM, Web & UI/UX Director Apr 2026 – Present

Lead Teaching Assistant, Math 230 (Multivariable Calculus) Aug 2025 – Present
